

## Nursing – Annotated Bibliography Example

### Citation (APA):

Benner, P. (1984). *From novice to expert: Excellence and power in clinical nursing practice*. Addison-Wesley.

### Annotation:

Benner explores the development of nursing skills through five stages, from novice to expert. The book highlights experiential learning and clinical judgment in professional nursing practice. This source is widely cited in nursing education and provides theoretical support for competency-based training. It is helpful for discussing skill development and clinical decision-making in nursing.
